

# Teamwork tower build

- You will need pieces of A4 paper
- You will need to have the students in groups of three or four
- If you want a greater challenge have larger groups

# Teamwork

Students will practice being team players by working together to build a structure while emphasizing communication, collaboration, and mutual support.

# Warm Up

One word check in

Conversation Starter:

When was the last time you had to work in a team?

# Self Control

## What skills make a good team mate?

Some key traits might include:

- Listening
- Sharing ideas
- Helping others

Today, you'll work in teams to build the tallest and most stable tower you can, but the focus is on how well you work together—not just on the tower itself

# Tower build

- Goal: To build the tallest and most stable tower out of paper.
- Challenge: Team mates have restrictions
  - Only one member can talk
  - One member can only use one hand
  - One member can only use one eye

# Wrap up - Sharing

- What made your team successful?
- What was challenging about working as a team?
- How did you help or support each other?
- What would you do differently next time?
