

## **BYOx DET**

## Connecting with a Windows Device

This process outlines how staff and students with DET identities can connect to BYOx using a Windows device. Different Windows versions or devices may vary slightly.

## **Prerequisites**

- Must be a DET user (i.e. have a DET identity and login details).
- Must be added to the Staff or Student Active Directory group (<schoolcode>GG\_UsrBYO<Staff/Student>).
- Must be a local administrator on your Windows laptop or tablet.

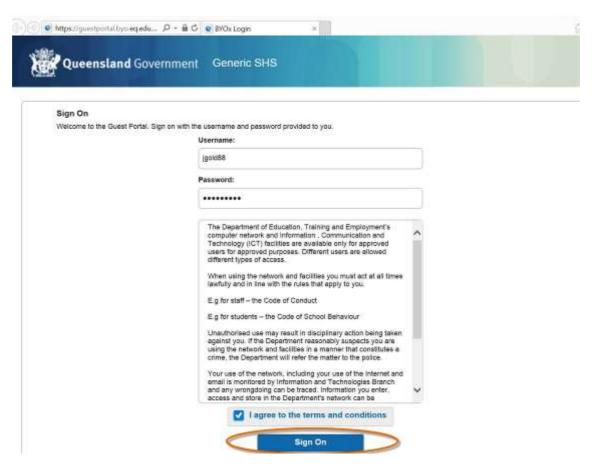

## Connecting to BYOx network as a Staff member or Student

1. Open your wireless settings and select 'DETE-Guest'.

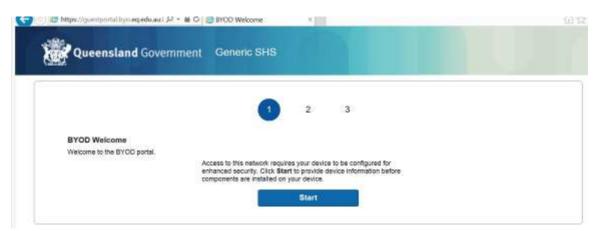

2. Open a browser and attempt to navigate to a non-https site (i.e. <a href="http://www.news.com.au">http://www.news.com.au</a>).

Whatever site you try to connect to, you will be redirected to a BYOx login page. Please read
the terms and conditions. Then type in your username and password. Then click "Sign On"
button.

4. Click "Start' button.

5. Type in your Device Name, then click "Continue" button.

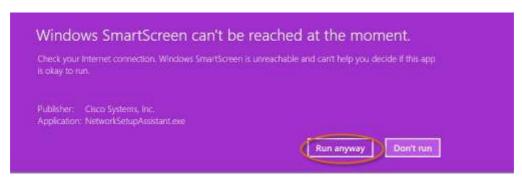

6. IE Browser will automatically prompt you to download and save Cisco Network Agent Assistant installation file. Please save it.

7. Once the download has completed, please click "Run".

8. If Windows SmartScreen warning pops out, please click "Run anyway" button to continue.

9. Click "Start" button

10. During the installation, please click "Yes" if Security Warnings pop out

11. Click "Exit".

12. Launch a browse and navigate to any website. Enter your DET network credentials, read and accept the terms and conditions and then click "Ok".

13. Your windows device is connected to DETE-BYOx network with Internet access now. You will be prompted to enter your DET username and password every eight hours.
