

headspace Emerald - Building Survey

Overview

A Lead Agency for headspace Emerald has been selected with an announcement to come in the next few weeks. As part of establishing headspace Emerald, the location and selection of a building is vital to making sure young people have easy access to the building and services. We are seeking guidance around the building from both the young people, local community and other stakeholders.

headspace Emerald must operate in facilities that are:

- Safe and accessible
- Comply with relevant standards and legislation
- Functional and cost effective
- Youth friendly
- Socially and culturally inclusive
- Clearly branded as headspace services

Your participation in this survey is completely de-identified and is also voluntary, so if you do not don't feel like completing it you don't have to.

The information will be used by the Lead Agency and pre-headspace consortium to assist them to understand the characteristics and needs of young people within Emerald and the Central Highland's and to ensure that they select the most appropriate building to establish headspace in. The building will be based in Emerald with outreach provided within the Central Highlands.

The information collected will be viewed only by the Lead Agency and the pre-headspace Consortium.

This survey should not take more than 1-2 minutes to complete.

Survey closes Friday ¹²5th February 2021.

What is headspace?
